ABOUT THE DEPARTMENT

The Department of Computer Science at St. Xavier's College Jaipur, provides robust technical education rooted in moral and ethical principles, equipping students for the challenges of the IT sector with global awareness and expert mentorship.

The Department provides a platform to explore core concepts alongside the latest technologies, encouraging excellence in computer science, IT, and research-oriented thinking. We focus on enriching learning, fostering entrepreneurship, and strengthening problem-solving skills.

Since 2010, we have been dedicated to nurturing the brightest minds by providing comprehensive, application-oriented exposure to both established and emerging fields in IT, aiming to develop highly skilled and technically proficient individuals. Our dedicated faculty continually support and inspire students to expand their horizons and achieve beyond their aspirations in an evolving technological world.

ABOUT TECH-X (IT SOCIETY)

The Cell hosts a variety of valuable events throughout the year, including seminars, webinars, workshops, and conferences. The TECH-X members strive to raise public awareness about the use of technology while advancing their own learning. Being part of a group helps individuals understand their identity, interests and goals. Students in the Cell have the opportunity to showcase their adaptability, organizational skills, teamwork abilities, leadership qualities and service-oriented mindset.

The Club also fosters effective communication among its members, encouraging collaboration and the growth of new initiatives. Its objective is to bring forth students' excellence in technology and the new media industry, to build a vibrant community of individuals interested in high-tech and digital media and to provide meaningful networking opportunities.

The Club takes responsibility for supporting and conducting seminars, workshops, events and training programs throughout the year.

Annual Tech Fest

" TECHNOID '25 "

"Where Technology Empowers Humanity"

Step into the frontier of "CYBERPUNK", an exploration of the limitless possibilities that emerge when human creativity intertwines with AI's analytical prowess. This event dives into the unique synergy that forms when human intuition meets the logical precision of artificial intelligence, driving innovation and discovery across fields.

The Computer Science Department aims to explore the powerful convergence of human capabilities and automated intelligence, highlighting how technology can augment creativity, innovation, and critical thinking. Through Technoid'25, participants will experience this synergy firsthand as they engage in a diverse range of activities — from workshops and expert-led panel discussions to competitive events, interactive games, and networking opportunities. This event seeks to create an environment where human insight and technological advancement meet.

NEON NARRATIVES

A photography event where participants capture visual stories of technology, light, and life in a cyber-inspired world filled with vibrant colours and futuristic reflections.

GENERAL RULES:

- Participants must capture photographs that reflect the theme — technology, light, and life in a cyber-inspired world with vibrant colours and futuristic reflections.
- All entries must be original and captured by the participant. AI-generated or plagiarized images are strictly prohibited.
- Basic editing such as brightness, contrast, colour correction, and cropping is allowed. Heavy manipulation or adding/removing major elements is not permitted.
- Photos should be submitted in high-resolution JPEG/PNG format with a title and a short caption explaining the concept.
- Each participant can submit a maximum of two photographs for the event.
- Any camera or smartphone can be used as long as the photo quality and clarity are maintained.
- Participants must follow ethical photography practices — avoid causing harm or violating privacy while taking pictures.
- Judging will be based on creativity, theme relevance, composition, colour balance, and storytelling impact.
- All photographs must be taken and submitted within the official event timeframe.
- Organizers reserve the right to display or publish winning photographs for promotional purposes, with credit to the photographer.

DEPARTMENT OF COMPUTER SCIENCE

IN COLLABORATION WITH TECH-X (IT SOCIETY)

Round 1

- Participants submit one photograph based on the theme “Technology, Light, and Life in a Cyber-Inspired World.”
- The image should highlight futuristic elements, neon tones, and creative storytelling.
- Judges will assess creativity, composition, and relevance to the theme.
- Selected participants will qualify for the next round.

Round 2

- Shortlisted participants will capture photos within a given time and specified area.
- The photo must portray vibrant colours, lights, and futuristic reflections inspired by cyber aesthetics.
- This round tests participants’ ability to adapt and create under time constraints.
- The best captures will move forward to the final round.
- Finalists will present their chosen photograph along with a short narration or explanation.
- Participants must describe the story, inspiration, and connection to the theme..

REEL-O-TRON

Short reels (30–60 seconds) on cyberpunk life, AI evolution, or cybersecurity.
Judged on storytelling, editing, and innovation.

GENERAL RULES:

- Participants must create a short reel (30–60 seconds) based on any one of the given themes — Cyberpunk Life, AI Evolution, or Cybersecurity.
- All content must be original and created by the participant or team. Plagiarized or AI-generated videos are not allowed.
- Reels should focus on strong storytelling, creative editing, and innovative presentation.
- Any editing software or mobile app may be used, but the final output must maintain high video and audio quality.
- Background music or sound effects used must be copyright-free or self-created.
- Participants can submit only one entry for evaluation.
- Reels must be submitted in MP4 format with a suitable title and a short description of the concept.
- Content must be decent and appropriate — no offensive, violent, or political material will be accepted.
- Participants must ensure ethical filming — respect privacy and avoid filming individuals without consent.
- Entries will be judged on storytelling, editing skills, creativity, and innovation.
- The decision of the judges will be final and binding.

Round 1:

- Participants will create and submit a 30–60 second short reel based on any one of the themes — Cyberpunk Life, AI Evolution, or Cybersecurity.
- The reel should highlight storytelling, creativity, and innovation while maintaining relevance to the theme.
- Judges will evaluate based on concept originality, editing quality, and visual impact.
- The best entries will qualify for the final round.

Round 2

- Shortlisted participants will present their reels before the judges or audience.
- Each participant will briefly explain their idea, inspiration, and editing approach.
- Judging will focus on storytelling strength, editing techniques, innovation, and overall presentation.
- Winners will be declared based on the judges' final decision.

TECH TRIVIA

"Get ready to test your tech knowledge at Tech Trivia! Join us for a fast-paced evening filled with challenging questions, surprising facts, and exciting prizes. Bring your Agame and your smartest friends—who will rise to the top as tech trivia champions?"

Quizzes often blend learning and play in the most exciting way. Each round brings a new twist, a new chance to score points, and, of course, a new moment to cheer or groan over the results. And there's more than knowledge on the line —it's the thrill of friendly competition, the joy of guessing right, and the satisfaction of learning something unexpected.

GENERAL RULES:

- A total of 30 questions will be asked from the participants.
- The time limit for answering each question is 10 seconds for 1st and 2nd rounds. The time limit for answering each question is 15 seconds for the 3rd round.
- For each correct answer, participants will be awarded with:
- 5 points in round 1
- 10 points in round 2
- 20 points in round 3
- There is no elimination round, the participant with the highest point will be the event winner.

Round 1: Test Your Knowledge (15 Questions)

- The technology quiz questions will test how much you know about computers.
- For each correct answer, participants will be awarded 5 points.
- The time limit for answering each question is 10 seconds.

Round 2: Emoji in Tech (10 QUESTIONS)

- The participants will be given riddles based on emoji and they will be given 10 seconds to crack the mysteries.
- For each correct answer, participants will be awarded 10 points.
- The time limit for answering each question is 10 seconds.

Round 3: Retro Phonic (5 QUESTIONS)

- For each correct answer, participants will be awarded 20 points.
- The time limit for answering each question is 15 seconds.

NEON TRAIL

"Seek the unknown, find the treasure within".

Embark on an epic adventure with our Treasure Hunt at Technoid 2024! Form your team of 4-5 members and get ready to race against the clock, solving clues and uncovering secrets through four uniquely thrilling rounds. Each round eliminates the last team to crack the clues, so stay sharp and be quick!

GUIDELINES:

- Participation is open to individuals or teams of 4-5 members.
- Each team will be designated with one volunteer to supervise during each round.
- Fair play is essential; any team found engaging in cheating activities will face disqualification.
- There will be four exciting rounds Unique from each other, One Clue will Lead to Another and the team that finds the clue's last in each round, will be eliminated.
- Time is of the essence! All rounds of the hunt must be concluded within a 40-minute time frame.
- Phones and electronic devices are strictly prohibited during the game.
- Join us for an adventure through the ages as we unlock hidden treasures and make unforgettable memories!

VALORANT RULES

1.Game Rules:

1.1.Game Account

- A player is allowed to have only one. Valorant nickname has to be in the format Riot ID #Tagline. (Example: Mr Smith #EUNE). Any other format will be invalid.
- You are not allowed to share or use another person's game account. Your account is for your use, and your use alone.

1.2.Team

- Each team must consist of at least 5 players.
- Each team will be allowed to have 5 main players and 1 substitute. Once the tournament starts, you cannot replace any player.
- A substitute player may only be added before the Tournament Start.
- This player cannot be part of any other team which is participating or has participated in the same tournament.
- Match has to be played in the following format: 5v5.

TXN TECHNOID

- A player is allowed to represent only one (1) team in the same tournament.
- If you are a solo player/ don't have a team, you'll be paired with random teams by the Event Coordinators.

1.3. Mode of The Event

- The Event will be conducted online.
- Each player is requested to play from their personal devices.
- If any player is playing from within the college campus then the event management is not liable to provide internet services.

2 Match Rules:

2.1. Before the match starts:

- The tournament Round will start as scheduled unless said otherwise. Some rounds might get delayed, for all the information please check our discord, where all information is current.
- Your team has to finalize their representative (Captain) at the time of registration.
- Team captains of each team will have to choose maps and sides as described:

BO 1:

- A toss will be conducted. The winning team gets the chance to ban the first map from the map pool then the other team bans a map from the map pool.
- Until left with the single map
- The toss will be conducted for (Attackers/Defenders) to start on.

BO 2:

- A toss will be conducted. The winning team gets the chance to ban the first map from the map pool then the other team bans a map from the map pool.
- The first team gets to pick the first map and the opponent gets to pick their side (Attacking/Defending).
- The side on the final map will be decided through a toss.
- Team Captain is requested to record this process.
- After map selection team captains have to write that their team is ready in the lobby chat. The game should not start before that.
- The match has to start at the latest 15 minutes after the tournament round starts. Before starting team captains have to take a screenshot of the lobby.

2.2.During the Match:

1. If one of the teams will not pick all the agents in the character selection screen and the game goes back to the lobby, the game has to be remade.
2. In the case that the game started before writing ready from both sides, the team which did not write ready has the right to call a remake before round 1 of the game starts. (Before the countdown in the game of round 1 reaches 0). If any of the players are not connected to the game before the counter reaches 0, the team can call a remake and the game has to be remade.
3. If the game started on the wrong map, the game has to be remade.
4. To do the remake, all the players have to leave the match. Start the next game as soon as possible. Both team captains will have to write ready again. If the team is not ready by 5 minutes after the remake, the team which is not ready will be disqualified. The game can be remade only once, the game has to be played in the way it started after the remake, even if issues will occur. The situation can still be reported in #tournamentsupport.
5. If a player disconnects during the game, the match will be paused and the player will have 1 minute time to rejoin.
6. Each team will have 2 strategic timeouts- 1 timeout for 1 half of the match. If any team call for more than 1 timeout in a single half then that team is liable to punishment decided by the event coordinators.
7. If the servers are acting badly for both teams or the game goes down, please report it to us in #tournament-support. Event coordinators are not responsible for any game lag (frame drops, game lag, network issues, etc…) during the match.

2.3.After the Match:

- Once the match finishes, both team captains have to take a screenshot of the results and post it in the #tournament-results on the Event Discord Server.
- On the game result screenshot, results above the scoreboard, all the players and information of the match on the right of the results have to be visible.
- If one of the teams will not send the screenshot within 15 minutes of the match ending, screenshot which was sent by the other team will be taken into account.
- If the screenshots of both teams are missing within 15 minutes of the match end, the game will not be counted and in the case of BO1, both teams will be disqualified.
- If the screenshots from both teams are not matching, the situation will be looked into by the AI Verse League admin team. The team which provided the incorrect screenshot can be disqualified or banned based on the circumstances.

3. MATCH SETTING

3.1. Maps:

- Bind, Haven, Split, Ascent, Lotus

3.2. Server Setup:

- Map: depending on which map was selected to be played from the map pool.

Mode: Standard

Options:

- Allow Cheats: Off
- Tournament Mode: On
- Overtime: win by Two: On
- Primary Servers: Mumbai, Singapore 1, Singapore 2

If both teams formally agree to play on another server, then they are allowed to do so

4. COMMUNICATION

4.1. All communication with the players and teams is handled on the official event Discord Server. Important information will always be in the #tournament-information channel and if you need any support, #tournamentsupport is the channel you're looking for.

4.2. Any questions regarding upcoming and ongoing matches can be directed to the admin team

5. CHEATING

5.1. It is forbidden to cheat, modify the game files, exploit bugs, and/or use any thirdparty application which would give an unfair advantage against other users.
5.2. All cheats are completely forbidden to use under any circumstance while playing in any event at AI Verse League. Using any cheat will result in bans and disqualifications. This includes, but is not limited to:

- ESP
- Radar hacks
- Wall hacks
- Speed hacks
- Aim hacks
- Hitbox manipulation
- Teleportation (any kind of teleportation, which is not possible in the game).

5.3. The usage of a bug/bugs to gain an advantage versus your opponents.
5.4. If a team uses a player that has an active ban by AI Verse League, the team will be disqualified from the tournament.

6. BETTING, GAMBLING, MATCH- FIXING AND TEAMING:

6.1. Players, coaches, team staff, team owners as well as hosts, and staff are prohibited from gambling or betting on any matches in any AI Verse League tournament.
6.2. All sorts of match-fixing and/or teaming are strictly forbidden and will be punished. This may include temporary or permanent bans.

7. BEHAVIOUR AND SPORTSMANSHIP:

7.1. Show respect to everyone involved in the tournament. This includes but is not limited to players and staff.
7.2. Treat everyone the same way you would like to be treated yourself.
7.3. Always show integrity while playing in every tournament, be honest, and play fair.
7.4. Do not use any discriminatory language, including but not limited to any language regarding ethnicity, nationality, race, gender, religion, sexual orientation, or personal beliefs.
7.5. Do not use any extreme foul language, including but not limited to excessive profanity or language that is graphically sexual, grotesque, or violent.
7.6. Do not make threats of real-world violence or other intended harm to anyone involved in the tournament.

7.7. Do not harass, stalk, or purposely do things to make someone else feel uncomfortable or threatened.

7.8. Do not share personal information about yourself or other individuals.

7.9. Do not engage in, request, arrange, or offer illegal activities or materials.

7.10. Do not impersonate other individuals.

7.11. Do not spam, be it in text or VOIP.

7.12. Do not share your account, your account is for your use and your use alone. Do not grant access to your account to anyone else, and do not access anyone else's account, even with their permission.

8. FORMAT:

8.1. Depending upon the number of teams fixtures will be set by the event coordinators on a random basis.

8.2. The winning team will proceed to the next match while the loosing team will be eliminated from the tournament.

HACK-A-MEME

Unleash your wit in the AI Meme Battle, where humor meets high-tech creativity! Participants will use AI tools to craft memes inspired by cyberpunk and cybersecurity themes — from AI takeovers to digital glitches. The most clever, relatable, and futuristic memes will rule the neon realm!

GENERAL RULES:

- Create Original Memes: All memes must be made using AI tools (e.g., DALL·E, Bing Image Creator, Canva AI, etc.) — no copied content.
- Stick to the Theme: Memes must relate to Cyberpunk or Cybersecurity concepts only.
- Submission Format: Submit 1 meme in .jpg or .png format with a caption or text included.
- Appropriate Content: Avoid offensive, political, or inappropriate humor — such entries will be disqualified.
- AI Disclosure: Mention the AI tool(s) used to generate your meme during submission.
- Time Limit: Each participant gets 30–45 minutes to create and submit their meme.
- Judging Criteria: Creativity, humor, relevance to theme, and visual appeal — judge's decision is final.
- Presentation Rule: Participants must briefly explain their meme's idea and how AI was used during evaluation (max 1 minute).

TECHNO REBIRTH

It focuses on transforming electronic waste into innovative and sustainable creations. The event encourages participants to repurpose discarded technological components such as circuit boards, wires, and old devices into useful or artistic models. By combining creativity with environmental responsibility, the event aims to raise awareness about e-waste management and promote sustainable innovation. It highlights the importance of giving new life to discarded technology while fostering a culture of recycling and responsible tech use.

GENERAL RULES:

- Create from E-Waste: Participants must design a unique model or artwork using discarded electronic components like wires, chips, or circuit boards.
- Original Work Only: Ready-made or pre-built projects are not allowed — everything must be made during the event.
- Use of Materials: Minimal use of non-electronic items (like cardboard or glue) is allowed only for structure or support.
- Time Limit: Each participant/team will get 1.5 to 2 hours to complete their creation.
- Safety First: Use tools safely and handle sharp or electrical parts with care — safety gear is recommended.
- Theme Focus: The project must highlight recycling, innovation, and sustainability in technology.
- Presentation: Participants will give a 2–3 minute explanation about their creation and concept.
- Judging: Entries will be judged on creativity, material use, functionality/artistry, and relevance to the theme — judges' decision is final.

Round 1:

- Participants must create a model or artwork using only e-waste materials.
- Time limit: 1 hour for completion of the model.
- Individual or team of 2 participants are allowed.
- Participants must bring their own tools and materials (glue, cutters, etc.).
- Use of ready-made decorative items is not allowed; everything must be made from e-waste.
- The model should promote innovation, creativity, and sustainability.
- Participants will get 1–2 minutes to present and explain their creation to judges.
- Decisions of the judges will be final and binding.

CYBERMOTE

Get ready for a fun, expressive, and tech-inspired challenge with Emoji Sync! In this event, teams will use their creativity, coordination, and quick thinking to bring emojis to life — literally. Each team will be given an emoji (like 🔼, ❤️, 😂, ⚡, etc.), and they must act, pose, or form shapes together to represent it. It's all about teamwork, imagination, and decoding emojis through expressions and movement!

GENERAL RULES:

- Each team will consist of 3 to 5 members.
- Teams will be assigned an emoji on the spot by the coordinators.
- Participants will have 3–5 minutes to prepare their act or pose.
- Teams must act, pose, or creatively form the emoji using only expressions, gestures, and teamwork — no props allowed.
- Verbal communication during performance is not permitted; it should rely purely on visual expression.
- Time limit: Each team gets 1–2 minutes to perform.
- Judging will be based on creativity, synchronization, expression, and emoji resemblance.
- Decision of judges will be final and binding.

TXN TECHNOID

Round 1:

- Each team will be given 5 emojis, one at a time.
- Teams will have to depict each emoji within 1 minute.
- Points will be awarded based on accuracy, coordination, and creativity.
- At the end of this round, teams that depict the least number of emojis correctly will be disqualified.
- The time taken to successfully depict each emoji will be recorded for tie-breaking if needed.

Round 2:

- Qualified teams from Round 1 will compete in a knockout format.
- Each round will feature one emoji at a time — teams must act it out within 1 minute.
- Teams that fail to depict the emoji correctly or within the given time will be eliminated immediately.
- Judges will evaluate on creativity, coordination, accuracy, and speed.
- The team with the best performance and least depiction time will be declared the winner.

NEON VELOCITY

Neon Velocity redefines the art of speed in a cyber-futuristic world! Drawing inspiration from retro racers Need for Speed and Road Rash, this event puts participants in the driver's seat of a neon-drenched city where speed meets rebellion. Compete head-to-head, dodge chaos, and dominate the leaderboard as the streets light up with pixel energy and cyberpunk flair.

GENERAL RULES:

- The event will be conducted in solo participation format — one player per round.
- Participants will compete in a racing game inspired by classic retro titles (e.g., Need for Speed, Road Rash, or similar).
- Each player will be allotted one practice run (optional) and one main attempt for scoring.
- Game controls and rules will be explained before the round begins; any misuse or glitch exploitation will lead to disqualification.
- Players must use the assigned systems and settings only — no personal devices, mods, or external controllers are allowed.
- Race duration: Each race will last around 3–5 minutes, depending on the map or level.
- Collisions, crashes, or fouls will affect the player's time or score as per game mechanics — no restarts unless a technical fault occurs.
- Leaderboard rankings will be based on completion time, performance score, and fair play.
- Judges'/organizers' decisions are final and binding.

DEPARTMENT OF COMPUTER SCIENCE

IN COLLABORATION WITH TECH-X (IT SOCIETY)

Round 1:

- Racers begin their journey through the neon-lit streets.
- Focus on speed, control, and timing as participants race to set their best lap record.
- The top-performing racers based on time and accuracy advance to the next round.

Round 2:

- A head-to-head challenge inspired by Road Rash-style racing.
- Tracks feature obstacles, rival interference, and unpredictable turns.
- Emphasis on both survival and aggression — racers must handle chaos while maintaining speed.
- Only the top scorers and most resilient racers qualify for the final round.

Round 3:

- The ultimate high-voltage showdown in a dynamic, changing cyber track.
- Tracks may shift mid-race, featuring hazards, digital barriers, and speed traps.
- Focus on strategy, reflexes, and risk-taking to dominate the leaderboard.
- The racer who conquers the neon storm with the highest score or fastest time is crowned the Neon Velocity Champion.
